I am come this morning to bring the Feeling of Comfort which is experienced when the life-stream learns to know the power that lies within the constantly flowing stream of energy which forms the very heart-beat of all animate form.

Comfort lies within the recognition and acceptance of the ever-present Power of God - forever Master over energy through the individual being.

When the chela applies for admission into My Retreat at Ceylon, motivated by the desire either to receive Comfort or to become a Comfort to life, it is My endeavor to acquaint his consciousness with the Master Power of the God within himself.

When the outer consciousness is able, at will, to enter the Secret Place of the Most High and let the ever-flowing substance of the Universal Life, through him, externalize God's Will, he is then prepared to be a Comforting Presence and he himself lives in the assurance of the Ever-present Power of God as the Master Control of all circumstance.

In the Twenty-third Psalm, I endeavored, through the consciousness of David, to convey the assurance that, in the natural flow of life through the heart to the periphery of the life-stream, there was everything required according to the specific activity of the moment.

For the student to follow the flow of energy from the Presence into the Flame within the heart and then visualize the substance of that Flame become the Path upon which he proceeds through the universe, is to enter into the feeling that truly this Intelligent Light does lead him 'into the Paths of Righteousness and prepares a table before him' according to the requirement of the hour. Such an one abides in that feeling of 'goodness and mercy all the days of his life'.

The Intelligence within this natural flowing stream of energy, if acknowledged and actually visualized as externalized substance fanning out from the heart, would make every day a Day of Grace, Harmony, Happiness and Fulfillment, and by the Intelligence within that substance would the pertinent need of each hour be fulfilled.

If the student could visualize this substance becoming a Cup from which he would drink; the knowledge upon which he would rest; the bread of life which is the nourishment of the body; the Mercy by which returning karma would be melted into nothingness; an actual shield between him and all appearances of evil; as well as the inspiration of the soul and the cleansing, freeing, purifying Spirit by which all lifestreams who contact It would be blessed, then truly would he find the counsel of the Sage filled with Wisdom, when He bade the aspirant:

"BE STILL AND KNOW THAT I AM GOD!"

Blessings and Love,
